A LEADING EVENT IN THE GLOBAL MARITIME MAP

Organised by one of the largest trade exhibition organisers, Informa Markets, in conjunction with the Shanghai Society of Naval Architects & Marine Engineers (SSNAME), Marintec China is set far apart from other platforms in connecting businesses and distilling insight for Asia's maritime industry.

With a focus on innovation and collaboration, Marintec China offers the complete maritime supply chain, ranging from technologies and services, to raw components and shipbuilding materials, propulsion systems to prime movers, electrical systems and equipment to deck and safety equipment, shipping to port construction, offshore industry to cruise interior architecture and maritime services. Running alongside is the Senior Maritime Forum, a platform for thought-provoking discussions and debates on the pressing issues facing the maritime industry today and to shape the future of the maritime industry.

Marintec China is not only an event for presenting novelties to the world, but also a gathering point for established leaders and investors, regulators and academics, inventors and innovators, decision makers and ambitious start-ups and so many others who are the future of the maritime industry.

Don't miss out on this exciting event that is sure to leave a lasting impression on all who attend.

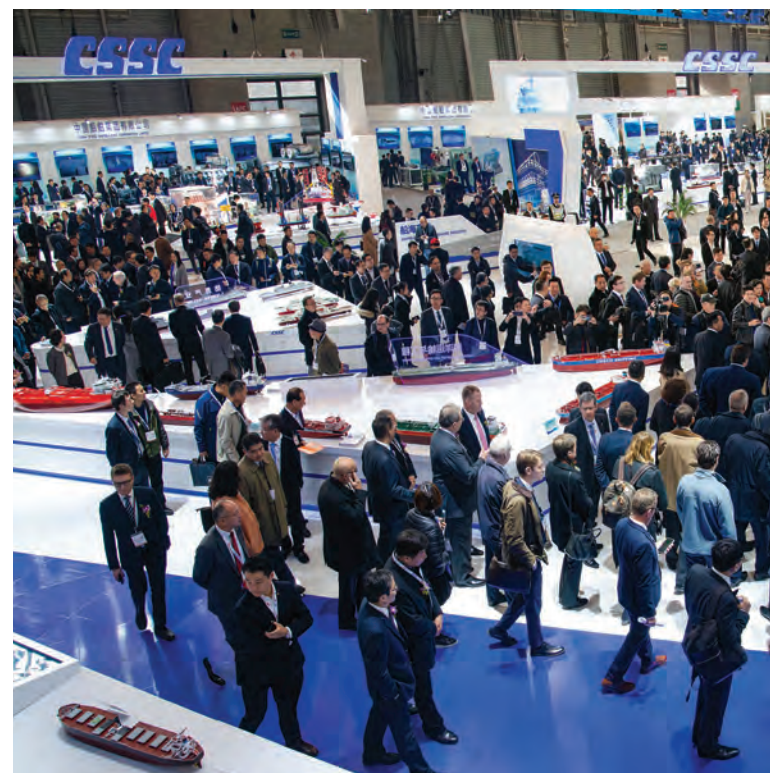

Marintec China is the largest marine technology show in China, and it is the place for companies which need to get in contact with local Chinese shipyards, ship engineering companies and ship suppliers. The German industry has been part of Marintec China from the very beginning and has strongly kept this corporation platform active through the decades. We hope so in future as well, because we need this international corporation and Marintec China played a part in this corporation especially between the European equipment makers and the Chinese shipbuilding industry.

*Hauke Schlegel, Managing Director
VDMA*

Marintec China is one of the most important maritime trade fairs in the world. It's regarded as the gateway to the Asian maritime market. Therefore, it's an important fair to exhibit for all Norwegian maritime experts.

*Erlend Prytz, CEO
Norwegian Maritime Exporters*

WHY MARINTEC CHINA

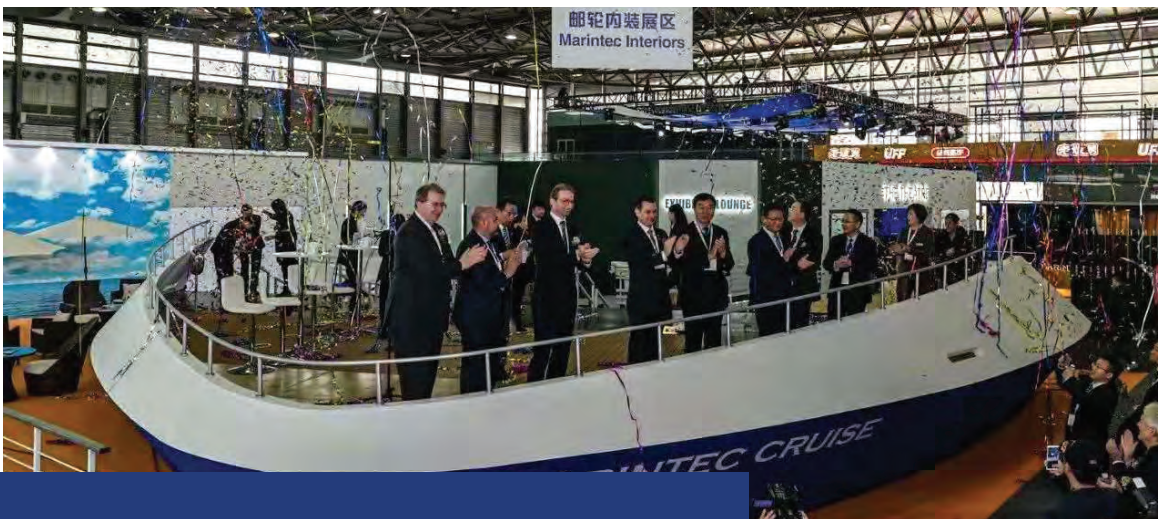

OVERALL COMMENTS FROM EXHIBITORS

- 96%** Satisfying rating on the fair scale
- 93%** Rated Marintec China is the most important exhibition
- 95%** Voted to participate in the next edition

OVERALL COMMENTS FROM VISITORS

- 99%** Satisfied with the quality of exhibitors
- 95%** Achieved the objective to understand industry news in China
- 93%** Rated Marintec China is the most important exhibition

marintec cruise interiors

The cruise industry has been growing rapidly in Asia over the past few years, and the demand for high-quality cruise interiors has also increased. It is a complex and dynamic market that requires a deep understanding of the region's culture, design preferences, and technological advancements.

In 2019, with the support from China State Shipbuilding Corporation Limited, China COSCO Shipping Corporation Limited and China Merchants Industry Holdings Co Ltd, Marintec launched a new zone, **Marintec Cruise Interiors**, the first event focusing on interior architect and outfitting for the Asian industry.

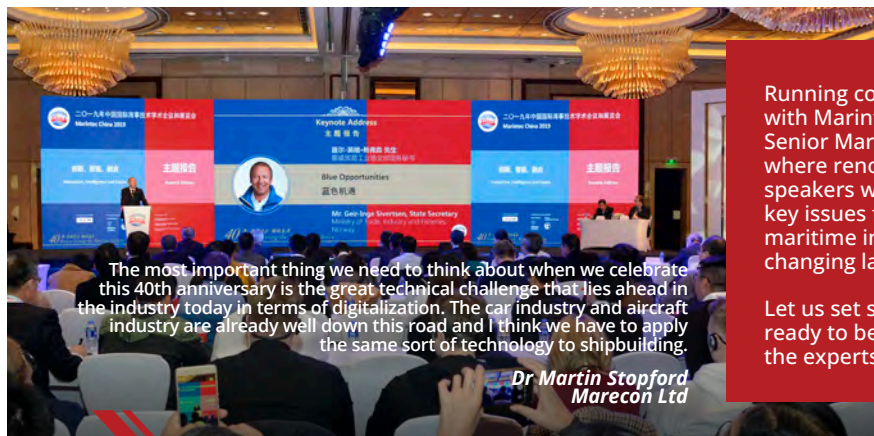

Marintec China gathered over 300 cruise shipbuilding companies under one roof and the new extension, **Marintec Cruise Interiors**, will bring the floating hotel to the fair with special features including The Deck / The Reception / The Suite / The Theatre / Bar and Restaurant / Relaxation, and to share a total new experience with all attendees.

4 - 7 . 12 . 2023

SENIOR MARITIME FORUM

Running concurrently
with Marintec China,
Senior Maritime Forum
where renowned
speakers will discuss
key issues facing
maritime in today's
changing landscape.

Let us set sail and get
ready to be inspired by
the experts!

The most important thing we need to think about when we celebrate this 40th anniversary is the great technical challenge that lies ahead in the industry today in terms of digitalization. The car industry and aircraft industry are already well down this road and I think we have to apply the same sort of technology to shipbuilding.

Dr Martin Stopford
Marecon Ltd

5 December – Afternoon Session Keynote Address – Innovation,
Intelligence, Carbon-neutral
6 December – Morning Session Shipbuilding & Ocean Engineering
6 December – Afternoon Session Shipping and Ports
6 December – Afternoon Session Luxury Cruise

7 December – Morning Session Marine Finance and Law
4 December – Afternoon Session Marine Equipment Technology
Forum – New Technology and
Regulation *(for exhibitor only)*
